

International Petroleum Corporation Announces Completion of Normal Course Issuer Bid and Confirms Intention to Renew

International Petroleum Corporation (IPC or the Corporation) (TSX, Nasdaq Stockholm: IPCO) is pleased to announce that IPC has completed the current normal course issuer bid / share repurchase program (NCIB), purchasing for cancellation 9.3 million IPC common shares between December 2022 and November 2023, representing approximately 6.8% of the total outstanding common shares at the commencement of the NCIB. As previously announced, the IPC Board of Directors has approved, subject to acceptance by the TSX, the renewal of IPC's NCIB for a further twelve months from December 2023 to December 2024. IPC expects that the renewed NCIB program will permit IPC to purchase on the TSX and/or Nasdaq Stockholm, and cancel, up to a further 8.3 million common shares, representing approximately 6.5% of the total outstanding common shares (or 10% of IPC's "public float" under applicable TSX rules). IPC's current intention is to fully complete the renewed NCIB program during 2024.

During the period of November 13 to 15, 2023, IPC repurchased a total of 134,000 IPC common shares (ISIN: CA46016U1084) under the NCIB on Nasdaq Stockholm. All of these share repurchases were carried out by Pareto Securities AB on behalf of IPC.

IPC's current NCIB, announced on December 1, 2022, is being implemented in accordance with the Market Abuse Regulation (EU) No 596/2014 (MAR) and Commission Delegated Regulation (EU) No 2016/1052 (Safe Harbour Regulation) and the applicable rules and policies of the Toronto Stock Exchange (TSX) and Nasdaq Stockholm and applicable Canadian and Swedish securities laws. Since December 5, 2022 up to and including November 15, 2023, a total of 9,333,479 IPC common shares were repurchased under the NCIB through the facilities of the TSX and Nasdaq Stockholm.

For more information regarding transactions under the NCIB in Sweden, including aggregated volume, weighted average price per share and total transaction value for each trading day during the period of November 13 to 15, 2023, see the following link to Nasdaq Stockholm's website:

A detailed breakdown of the transactions conducted on Nasdaq Stockholm during the period of November 13 to 15, 2023 according to article 5.3 of MAR and article 2.3 of the Safe Harbour Regulation is available with this press release on IPC's website: www.international-petroleum.com/investors/#press.

All common shares repurchased by IPC under the NCIB will be cancelled. As at November 16, 2023, the total number of issued and outstanding IPC common shares is 128,652,220 with voting rights, of which IPC holds 427,400 common shares in treasury. Following cancellation of these common shares held in treasury, the total number of issued and outstanding IPC common shares will be 128,224,820.

Forward-Looking Statements

This press release contains statements and information which constitute "forward-looking statements" or "forward-looking information" (within the meaning of applicable securities legislation). Such statements and information (together, "forward-looking statements") relate to future events, including the Corporation's future performance, business prospects or opportunities. Actual results may differ materially from those expressed or implied by forward-looking statements. The forward-looking statements contained in this press release are expressly qualified by this cautionary statement. Forward-looking statements speak only as of the date of this press release, unless otherwise indicated. IPC does not intend, and does not assume any obligation, to update these forward-looking statements, except as required by applicable laws.

All statements other than statements of historical fact may be forward-looking statements. Any statements that express or involve discussions with respect to predictions, expectations, beliefs, plans, projections, forecasts, guidance, budgets, objectives, assumptions or future events or performance (often, but not always, using words or phrases such as "seek", "anticipate", "plan", "continue", "estimate", "expect", "may", "will", "project", "forecast", "predict", "potential", "targeting", "intend", "could", "might", "should", "believe", "budget" and similar expressions) are not statements of historical fact and may be "forward-looking statements". Forward-looking statements include, but are not limited to, statements with respect to: the ability and willingness of IPC to continue the NCIB, including the number of common shares to be acquired and cancelled and the timing of such purchases and cancellations; the ability of IPC to renew the NCIB and the number of common shares which may be purchased under a renewed NCIB; and the return of value to IPC's shareholders as a result of any common share repurchases.

The forward-looking statements are based on certain key expectations and assumptions made by IPC, including expectations and assumptions concerning: prevailing commodity prices and currency exchange rates; applicable royalty rates and tax laws; interest rates; future well production rates and reserve and contingent resource volumes; operating costs; the timing of receipt of regulatory approvals; the performance of existing wells; the success obtained in drilling new wells; anticipated timing and results of capital expenditures; the sufficiency of budgeted capital expenditures in carrying out planned activities; the timing, location and extent of future drilling operations; the successful completion of acquisitions and dispositions; the benefits of acquisitions; the state of the economy and the exploration and production business in the jurisdictions in which IPC operates and globally; the availability and cost of financing, labour and services; and the ability to market crude oil, natural gas and natural gas liquids successfully.

Although IPC believes that the expectations and assumptions on which such forward-looking statements are based are reasonable, undue reliance should not be placed on the forward-looking statements because IPC can give no assurances that they will prove to be correct. Since forward-looking statements address future events and conditions, by their very nature they involve inherent risks and uncertainties. Actual results could differ materially from those currently anticipated due to a number of factors and risks. These include, but are not limited to: the risks associated with the oil and gas industry in general such as operational risks in development, exploration and production; delays or changes in plans with respect to exploration or development projects or capital expenditures; the uncertainty of estimates and projections relating to reserves, resources, production, revenues, costs and expenses; health, safety and environmental risks; commodity price fluctuations; interest rate and exchange rate fluctuations; marketing and transportation; loss of markets; environmental risks; competition; incorrect assessment of the value of acquisitions; failure to complete or realize the anticipated benefits of acquisitions or dispositions; the ability to access sufficient capital from internal and external sources; failure to obtain required regulatory and other approvals; and changes in legislation, including but not limited to tax laws, royalties and environmental regulations. Readers are cautioned that the foregoing list of factors is not exhaustive.

Additional information on these and other factors that could affect IPC, or its operations or financial results, are included in IPC's annual information form for the year ended December 31, 2022 (See "Cautionary Statement Regarding Forward-Looking Information", "Risks Factors" and "Reserves and Resources Advisory" therein), in the management's discussion and analysis (MD&A) for the three and nine months ended September 30, 2023 (See "Cautionary Statement Regarding Forward-Looking Information", "Risks and Uncertainties" and "Reserves and Resources Advisory" therein) and other reports on file with applicable securities regulatory authorities, including previous financial reports, management's discussion and analysis and material change reports, which may be accessed through the SEDAR+ website (www.sedarplus.ca) or IPC's website (www.international-petroleum.com).
